

## Cuccio Naturalé Paradiso Manicure

Treat your client to Paradise. Elevate your Spa Manicure to the next level with a series of scented spa treatments featuring soothing soaks, exfoliation organic sea salts, refreshing spa elixirs, regenerating deep dermal vitamin-enriched wraps, extended massage and hydrating body butters. Try our Cuccio Naturalé Scentual Spa Signature Services. Available in Soothing and Moisturizing Milk & Honey, Anti-Aging and Revitalizing Pomegranate & Fig, Regenerating and Healing Papaya & Guava Nectar, and Energizing and Balancing Tuscan Citrus Herb with Clary Sage.

1. Spray your workstation with one of our tantalizing elixirs. All services should start with spraying sanitizing spray onto the nail surface.
2. Open the Natural Nail Client Guard sealed sterilization pouch in front of your client.
3. Drop one effervescent ball into warm water and soak hands and nails for a few minutes.
4. Apply Apple Cuticle Remover with Alpha Hydroxy Fruit Acid to cuticles; massage gently and soak. Push back cuticles and clean under nails.
5. Gently massage Pomegranate Skin Polisher with Alpha Hydroxy Acid or Milk & Honey Sea Salts for hands (this is a finer formula than the pedicure and body version) onto hands, wrists and arms. Wipe off with a moist towel.
6. To promote skin cell regeneration, apply a liberal amount of Deep Dermal Wrap evenly on hands and forearms with the application brush. Wrap plastic wrap, warm moist towel, electric mittens or plastic gloves and let sit for 5-10 minutes for an intense treatment. Gently wipe off with a moist warm towel.
7. Do an extended hand and forearm massage with Body Butter (warm in a lotion warmer or microwave for a hot butter massage).
8. Clean Nail Plate then apply Cuccio Naturalé Forte Nail Strengthener, which can be used as a base coat or by itself. When dry, apply one of Cuccio Naturalé cuticle oils of your choice gently massage the cuticle oil onto the cuticles.
